FIRST FENCER A DEPLOYMENT IN CENTRAL ASIA MILITARY DISTRICT, USSR (S)

1. (S/D) The first FENCER A deployment in the Central Asia Military District, USSR, was identified at Iliysk Airfield South [REDACTED] Ten FENCER A were observed—seven on the main parking apron, one in the maintenance area (Figure 1), and two involved in flight operations. None of the FENCER A had fuel tanks mounted under the wings. Normally, FENCER observed in transit are equipped with wing-mounted fuel tanks. Nineteen BREWER aircraft were parked on a small graded-earth portion of the main parking apron. These aircraft normally occupy the dispersal areas.
